Fannin Ltd (LIP Galway) Update Announcement

Dear Customer,

We previously corresponded on the 18th of May 2021, to update you on the certificate of analysis improvements.

The laboratory is continuously improving our systems and processes in line with the ISO 17025:2017 requirements, we are currently reviewing to update the measurement of uncertainty for all quantitative reporting.

The reintroduction of the measurement of uncertainty is going to be introduced on a phased basis from week 29 onwards, with expected completion date of February 2022.

All productivity test results that have the measurement of uncertainty omitted, will be reviewed prior to release to ensure the results are in full compliance with the interim tightened acceptance criteria of 54-140% and 75-140%.

Please forward this notice needs to all persons who need to be aware within your organisation.

Should you have any queries regarding this change please do not hesitate to contact us.

Regards,

 19/07/2021

Marian Quigney

QC Manager,

Fannin Ltd, Galway.
