Fannin Ltd (LIP Galway) Update Announcement

Dear Customer,

We previously corresponded on the 13th of July 2021, to update you on the certificate of analysis improvements.

The laboratory is continuously improving our systems and processes in line with the ISO 17025:2017 requirements, we have made minor changes to the certificate of analysis.

The certificate of analysis changes:

- Removed the Test uncertainty (TUR) column from the microbiological performance test; the TUR remains for pH test.
- Updated the statement of conformity, removing the application of the TUR to the microbiological performance test
- Changed the letters UoM to MU for abbreviation reference to measurement of uncertainty.
- Adding additional microorganisms where applicable to microbiological performance tests.

Note: The additional microorganisms are going to be introduced on a phased basis from week 50 onwards.

All certificates of analysis are in full compliance with ISO 17025:2017 requirements.

Should you have any queries regarding this change please do not hesitate to contact us.

Regards,

 06/12/2021

Marian Quigney
