Customer Notification
Update to certificate of analysis

Date of Notification:
20/10/2022

For the following Plate Media Product:
W11184 Brilliance Listeria Agar

Dear Customer,

Fannin Ltd, Galway wish to notify customers of the update to the reference strains on the growth promotion panel reported on the certificate of analysis for product W11184 Brilliance Listeria Agar.

Test strain *Listeria innocua* NCTC® 11288 will be replaced with *Listeria innocua* ATCC® 33090 on the Certificate of Analysis. *Listeria innocua* ATCC® 33090 is an alternative strain designation by the American Type Culture Collection (ATCC). The test parameters will remain the same. Please refer to UK Health Security Agency and/or the American Type Culture Collection for further information.

This notice needs to be passed on to all those who need to be aware within your organisation.

Should you have any queries regarding this change please do not hesitate to contact Fannin Ltd, Galway.
