Customer Notification

Update to inoculum and growth specification for W11494

Date of Notification:

03/07/2026

Fannin LIP Galway Announcement

Dear Customer,

This notification is to notify customers of the update to the inoculum and growth specification to be applied to the QC batch release testing of *Enterococcus faecalis* ATCC 29212 for W11494 Brilliance Staph 24. See below for the updated test inoculum:

W11494 Brilliance Staph 24	
Previous inoculum	Updated inoculum
10,000 – 1,000,000 cfu	1,000 – 10,000 cfu
Previous QC Growth Specification	Updated QC Growth Specification
Growth, Partial Inhibition, or No Growth	No Growth

This update is to align the testing of the product with the raw material manufacturer's specifications. This is an update to QC specifications only and will not affect the product's intended purpose or performance. This update will be reflected in the certificate of analysis of batches of this product released from 06/07/2026.

This notice needs to be passed on to all those who need to be made aware within your organisation.

Should you have any queries regarding this change, please do not hesitate to contact our quality team, lipquality@fannin.eu.

Rory Miller

QC Lead,

Fannin LIP Galway.
